SHIPMENTS: All merchandise illustrated is regular stock merchandise. All orders on items out of stock will be held on back order file and shipped upon arrival when stock is replenished.

PRICES: Retail prices only printed in this catalog. All prices shown are affected by market conditions and subject to change without notice.

PACKING: ISCO material is packed as best suited for safe shipment by experienced packers according to the specifications as set down by the transportation companies. They are carefully inspected and packed before shipment.

CLAIMS: We have the transportation company's receipt for shipment in good order. When loss or damage occurs the carrier alone is therefore responsible. Should your shipment arrive damaged or incomplete, or should you find loss or damage inside of the package (concealed breakage or damage), notify the transportation company's agent at once and file claim for reimbursement. **WE ARE NOT RESPONSIBLE FOR BREAKAGE OR DAMAGE IN TRANSIT.** We will endeavor to render assistance to you in the collection of your claim but we cannot be responsible for or guarantee collection of the claim.

RETURNS: In case of error, return packing slip with full particulars promptly. Positively do not return goods without our consent and shipping instructions from us. Merchandise returned without our consent will not be accepted.

TERMS: 2% cash, 10th proximo to trade of established credit, with exceptions as noted below. All C. O. D. orders should be accompanied by at least 25% of the value of the order. To avoid delay, customers desiring credit who are not satisfactorily rated should send references with orders.

5% MATERIAL:

ILLUMINATION ENGINEERING SERVICE

Our Engineering Department will be pleased to furnish specifications or make recommendations for your lighting problems—residential, commercial or recreational.

LOS ANGELES, 825-833 EAST THIRD STREET

WE FEATURE AT ALL FOUR STORES

- The most complete line of Electrical Supplies possible, including the great majority of better-known quality lines, for the Contractor, dealer, and Industrial.
- The greatest selection of Lighting Fixtures (both residential and commercial) on the Pacific Coast.
- A choice selection of rapid-selling, quality appliances for the dealer's store.

Also Floor and Table Lamps, Mazda Lamps, Fire Screens and Fire Sets, Fixture Parts, etc.

OUR SILVER ANNIVERSARY

Established in San Francisco since 1913
Twenty-five years of continuous service to our Pacific Coast Customers. Long recognized as the leading Lighting Fixture Company on the Pacific Coast, we offer also a complete line of Wiring and Construction Supplies for Contractor, Dealer, and Industrial, featuring the better-known quality lines. Let us help with your wiring material problems. We have, at each store, a staff trained in the Electrical Supply Business.

FRESNO, 814 FULTON STREET

Incandescent Supply Co.

SAN FRANCISCO

OAKLAND

LOS ANGELES

FRESNO

ESTABLISHED IN 1913—25 YEARS OF CONTINUOUS SERVICE

OUR OAKLAND STORE AT 19 GRAND AVENUE—A FEW STEPS EAST OF BROADWAY. ADEQUATE PARKING FACILITIES ADJACENT TO REAR ENTRANCE.

The success of the Incandescent organization has been founded largely on its desire to be of assistance to its various dealers—every sales help and dealer co-operation is available as part of the Incandescent Service.

A capable force of trained lighting fixture experts will help you select the correct and appropriate lighting for every need.

Lighting equipment is an important element in every home, office or store—important because good lighting makes for comfort and health—and correct lighting equipment is necessary to secure the most pleasing decorative effect.

OUR COMPLETE FIXTURE Catalog illustrates many types of commercial and residential lighting fixtures. If you do not have a copy, WRITE FOR IT.

On the left is a view of our store located in the heart of Oakland at 19 Grand Avenue. Here, as in each of our other locations, we maintain complete warehouse stocks of electrical supplies, appliances, and lighting fixtures. Here, also, we have one of the most completely equipped lighting fixture showrooms on the West Coast, with six spacious showrooms displaying hundreds of fixtures from which you or your customer can select the lighting fixtures best suited to your needs.

 2. Rubber insulation.
 3. Single cotton braid, flame retarding, in colors of black, white, red, green, blue or yellow. 500 feet per coil.
- | Size | Capacity | Cut | Full Coil | 2500' |
|------|----------|-------|-----------|--------|
| AWG | Amps. | Coil | 500' | asstd. |
| 14 | 15 | 12.65 | 9.90 | 9.40 |
| 12 | 20 | 17.00 | 13.50 | 12.85 |
| 10 | 25 | 24.45 | 19.50 | 18.40 |
| 8 | 35 | 40.65 | 32.10 | 30.40 |
- N.B. Cut coil, coil to 2500 ft., 2500 ft. asstd.

Stranded—Single Condr.—Double Braid

1. Tinned copper connectors.
 2. Rubber insulation.
 3. Cotton braid (rubber-filled tape size 6 and larger).
 4. Cotton braid, flame retarding, black.
- Sizes 6 and 4 also available in white. 500 feet per coil.
- | Size | Approx. | Cut | 500- | 2500' |
|------|---------|--------|--------|--------|
| AWG | OD | Coil | 2500' | asstd. |
| 6 | .38 | 65.25 | 51.30 | 48.90 |
| 4 | .45 | 86.55 | 68.25 | 64.95 |
| 3 | .48 | 111.00 | 87.60 | 83.25 |
| 2 | .51 | 126.60 | 99.90 | 94.80 |
| 1 | .59 | 177.00 | 141.45 | 133.20 |
| 1/0 | .63 | 213.00 | 168.00 | 160.50 |
| 2/0 | .67 | 255.00 | 202.50 | 192.00 |
| 3/0 | .73 | 307.50 | 241.50 | 229.50 |
| 4/0 | .78 | 363.00 | 285.00 | 271.50 |

Size	Approx.	Cut	500-	2500'
AWG	OD	Coil	2500'	asstd.
6	.38	65.25	51.30	48.90
4	.45	86.55	68.25	64.95
3	.48	111.00	87.60	83.25
2	.51	126.60	99.90	94.80
1	.59	177.00	141.45	133.20
1/0	.63	213.00	168.00	160.50
2/0	.67	255.00	202.50	192.00
3/0	.73	307.50	241.50	229.50
4/0	.78	363.00	285.00	271.50

Sizes larger than 500000CM, price on application.
N.B. Cut coil, coil to 2500', 2500' asstd. circular mil sizes.

N.B. Under 100', 100/500', 500' & over.

VARNISHED CAMBRIC CABLES

1. Solid or stranded, bare or tinned conductors.
2. Varnished cambric insulation.
3. Cotton braid, weatherproof or slow-burning.

1. Solid or stranded, bare or tinned conductors.
 2. Varnished cambric insulation.
 3. Lead sheath.
- Varnished cambric insulated cables will carry 20% more current than the same size rubber insulated cables, will withstand higher operating temperatures, and better withstand oil and grease. Available in single or multiple conductors, 600 volt, 3000 volt, or 5000 volt. Prices on application.

BETTER THAN CODE REQUIRES

RUBBER AND LEAD Building Wires and Cables

1. Tinned Copper Conductor.
2. Rubber insulation.
3. Rubber filled tape (cotton braid on small sizes).
4. Lead sheath.

Size	Approx.	Cut	Full Coil	2500'
	OD	Coil	500'	asstd.

12	.27	50.40	39.60	37.50
10	.32	77.70	61.20	57.60

Single Conductor Solid
500' per coil.
Price per M'

Size	Approx.	Cut	Full Coil	2500'
	OD	Coil	500'	asstd.
14	.25x.44	69.00	54.30	51.30
12	.30x.51	106.50	84.00	79.20
10	.32x.55	126.30	99.90	93.90
8	.38x.66	177.00	138.60	131.70

Size	Approx.	Cut	Full Coil	2500'
	OD	Coil	500'	asstd.
14	.56	177.00	138.60	131.70
12	.60	205.50	160.50	153.00
10	.64	238.50	186.00	177.00
8	.77	310.50	244.50	229.50

Solid Three Conductor
Larger sizes on application.
N.B. Cut coil, coil to 2500', 2500' and over.

WEATHERPROOF WIRE

Triple Braid Solid

1. Solid or stranded copper conductor.
2. and 3. Cotton braid, saturated.
4. Cotton braid, weatherproofed and finished.

Approximately 500' per coil.
Price per cwt.

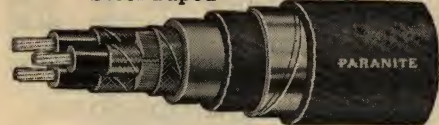

Size	Wt.	under	25 to	100 to
	per M'	25#	100#	200#
14	25	53.55	46.05	40.05
12	35	50.85	43.35	37.35
10	53	47.25	39.75	33.75
8	75	45.45	37.95	31.95
6	112	44.55	37.05	31.05
4	164	44.10	36.60	30.60

Prices on larger sizes, or on double braid, on application.

N.B. Under 25#, 25/100#, 100/200#, 200# and over.

PARKWAY CABLES

Steel Taped

1. Tinned copper connectors.
 2. Rubber insulation.
 3. Rubber filled tape.
 4. Fillers, taped.
 5. Lead sheath.
 6. Jute serving.
 7. Flat steel tapes.
 8. Impregnated jute serving, saturated and dust finish.
- For underground work, as airport lighting systems. Available in single, two, or three conductor, and 600 volt, 3000 volt, or 5000 volt. Prices on application.

TRENCHLAY CABLE

Non Metallic Sheath (Paraseal)

Similar to Parkway, but with fibrous armor in place of metal tapes. Less rugged but less expensive than Parkway. For underground services. Available in same conductors and voltages as Parkway. Price on application.

SERVICE ENTRANCE CABLE Type SE, Armored

1. Tinned copper conductors.
 2. 30% rubber insulation.
 3. Cotton braid, saturated.
 4. Wrapping of tinned copper wires.
 5. Steel armor.
 6. & 7. Rubber filled tapes.
 8. Cotton braid, moisture resisting, flame retarding.
- For use from drop leads to entrance switch.

N.B. Cut coil, coil and over.

OSCILLATING FAN CORD—3 Cond.

1. Extra flexible conductors. 2. Separator. 3. Code rubber insulation. 4. Cotton braid. 5. Cotton braid. 250 ft. per spool.

No. 20—3 cond., per M'.....52.50

N.B. Cut coil, coil and over.

MOTION PICTURE CABLE

For Waffle Iron Repairs

No. 16—per M'.....43.05

N.B. under 250', 250-500', 500-2000'.

FLEXIBLE LAMP CORDS

Twisted Pair—Type C

1. Flexible copper conductors. 2. Separator. 3. Rubber insulation. 4. Cotton braid. Green and Yellow, Black, or Olive Green. 250 ft. per spool.

No. 18 $\frac{1}{2}$, per M'.....18.00

N.B. Cut coil, coil and over.

Parallel All Rubber—Type POSJ

1. Extra flexible conductors. 2. Separator. 3. 40% rubber compound insulation. Colors: brown, green, ivory, black or grey. 250 ft. to spool.

No. 18, 2 cond., per M'.....17.00

N.B. Cut coil, coil and over.

Parallel Silk—Type PO

1. Flexible copper connectors. 2. Separator. 3. Code rubber insulation. 4. Cotton braid. 5. Rayon braid. Colors: Brown, old gold, maroon, olive green, grey, black, brush brass, ivory, or white. 250 ft. per spool.

No. 18 $\frac{1}{2}$, per M'.....18.00

N.B. Cut coil, coil and over.

Reinforced Cord—Type P

1. Flexible copper conductors. 2. Separator. 3. Code rubber insulation. 4. Cotton braid. 5. Rubber jacket. 6. Cotton braid. 250 ft. per spool.

No. 18 $\frac{1}{2}$, 2 cond., per M'.....32.25

N.B. Cut coil, coil and over.

FLEXIBLE HEATER CORDS

Braided—3000 Cycle—Type HPD

1. Flexible copper conductors. 2. Separator. 3. Unvulcanized rubber insulation. 4. Asbestos covering. 5. Cotton braid over all. Color: black with gold stripe. 250 ft. per coil.

Size	No. Conductors	Stranding	Price per M'
18	2	41x#34	27.75
16	2	65x#34	33.75
14	2	104x#34	41.25
12	2	165x#34	65.25
10	2	261x#34	90.00
14	3	104x#34	61.85

Twisted—3000 Cycle—Type HC

1. Flexible copper conductors. 2. Separator. 3. Unvulcanized rubber insulation. 4. Asbestos. 5. Cotton braid. Grey or Black. 250 ft. per coil.

No. 16—2 cond.....39.00

N.B. Cut coil, coil and over.

FLEXIBLE FIXTURE WIRES

Heat Resisting—Non Appearance—Type CF

1. Flexible copper conductors. 2. Separator. 3. Cotton braid, flame retarding. 4. Cotton braid, lacquered. Colors: Brown, white, oak tan, grey or black, with or without tracer. 500 ft. to spool.

No. 18, per M'.....11.25

No. 16, per M'.....14.25

N.B. Cut coil, coil and over.

Rubber Insulated—Type FF

1. Flexible copper conductors. 2. Separator. 3. Code rubber insulation. 4. Cotton braid. Colors: Brown, black, tan or white, with or without marker. 1000 ft. per spool.

No. 18 $\frac{1}{2}$, per M'.....9.75

N.B. Cut coil, coil and over.

ANNUNCIATOR WIRE

Single Conductor

1. Solid copper conductor. 2. and 3. Cotton wraps, saturated with paraffin. All standard colors. No. 18, single conductor, 142 ft. per lb.

5 lb. spools, per cwt.....48.35

1 lb. spools, per cwt.....51.35

$\frac{1}{2}$ lb. spools, per cwt.....54.35

Twisted Pair

1. Solid copper conductors. 2. and 3. Cotton wraps, saturated with paraffin. All standard colors and combinations.

No. 18, Twisted pair.....51.35

N. B. under 25#, 25-50#, 50-100#, 100# and over.

Rubber Covered Bell Wire

No. 18—Solid, 1000 ft. spools, per M.....8.55

N.B. Cutspool, spool, 2500' asst.

ANTENNA WIRE

7 strands of No. 24.

Type	Price Per 1000' reel	Price Per 100' coil
Plain	3.90	.39
Tinned	4.50	.45
Enameled	5.00	.50

KITCHEN UNIT CORD

Three Conductor—Braid Overall—Type CFPD

1. Flexible copper conductors. 2. Separator. 3. and 4. Cotton braid, moisture-resisting, flame retarding. 5. Cotton braid over all. 250 ft. per coil.

No. 14—3 cond., 41x#30, per M.....82.50

N.B. Cut coil, coil and over.

RANGE OR STOVE WIRE

- Asbestos covered. 250 ft. to coil. Solid.

No. 14—per M'.....41.10

No. 12—per M'.....46.20

No. 10—per M'.....53.10

No. 8—per M'.....65.10

N.B. under 250', 250-500', 500-2000' (Not asst.).

Loom Wire - BX & Fittings - Telephone Wire - Wire Connectors

LOOM (Non-Metallic Conduit)

Easy fishing, slick finish, highest quality.
Price per M'

Multibreakers - Meter Sockets & Trough - Pull Boxes

Trumbull

MULTIBREAKERS

Cutler Hammer

Load Centers

Service Equipment

For Residences, Small Stores, Individual Apartments, Farm Buildings and Similar Structures

Multi-breakers are for A.C. only—115/230 volts.

Mains are 70 ampere capacity.

Box Size—1 to 8 Poles: 6 $\frac{5}{8}$ " W. x 3 $\frac{1}{8}$ " D. x 11 $\frac{1}{8}$ " L.

Prices are based on 15-, 20-, 25- and 35-Ampere Circuits.

For each 50-Ampere Single Pole Circuit substituted for each 15-, 20-, 25- or 35-Ampere Single Pole Circuit, add \$0.56 each.

For each 50-Ampere Double Pole Circuit substituted for a 15-, 20-, 25- or 35-Ampere Double Pole Circuit, add \$1.12 each.

For tap off for mains extension add "X" to catalog number and \$1.12 to price.

Flush Mounting—Gray Enamel Finish Surface Mounting—Black Enamel Finish

Shipping Weight (2-4 circuits) 10 lbs.—(5-8 circuits) 11 lbs.

Following is a partial listing only, of more common combinations. Write for complete Multibreaker Bulletin "T" 148

TOOLS

GREENLEE KNOCKOUT PUNCH

Saves from several minutes to an hour on each hole cut in metal boxes. Cuts holes in metal up to 10 gauge or $\frac{1}{8}$ " thick. Operates simply. A common wrench drives the nut which in turn forces the punch through the metal into the die. Cuts holes for $\frac{1}{2}$ ", $\frac{3}{4}$ ", 1" and $1\frac{1}{4}$ " conduit.

No. 735—Mfrs. List, each.....10.00
No. 737—For $1\frac{1}{2}$ " and 2" conduit.
Mfrs. List, each.....10.00

GREENLEE KNOCKOUT CUTTER

This tool will cut through metal up to 10 gauge or $\frac{1}{8}$ " thickness in $1\frac{1}{2}$ minutes or less per hole. Operates simply. Cutting is done by the

feed and drive action of two wheel cutters. Cuts holes for $1\frac{1}{2}$ ", 2", $2\frac{1}{2}$ " and 3" conduit.

No. 740—Mfrs. List, each.....15.00

GREENLEE JOIST BORER

Continuous round-link chain.

Will drive bits up to $1\frac{1}{4}$ " in diameter. Complete with $\frac{1}{8}$ " bit.

No. 750—
Mfrs. List, Each.....15.00

FLUSH TYPE THE NEW ANNUNCIETTE

No. 672

A small, neat, flush standard unit that replaces the old-fashioned surface annunciator at no greater cost. The new, modern design effects a remarkable reduction in size—compact construction—pleasing in appearance.

The new, simple, smooth action drop takes much less current for operation.

The POWACALL (in next column) operates it perfectly. The reset principle is entirely new—no "thrust, throw or push"—just a quick, easy pressure of the button.

85 Different Markings furnished with each Annunciette.

No. 672

ANNUNCIETTE WITH WALL BOX

NICHROME WIRE ON CARD

No. 465-2

Requires no cutting
Stretch to desired length
3/2" diameter

600 watt, 110-120 volt

Price, per C.....13.50

FLASHER BUTTONS

60 watts 125V.

No. 472T—Twinkle
30 flashes per minute

No. 472B—Beacon
16-20 flashes per minute
Each30

IRON ELEMENTS

No. 301

No. 301—Fits all element for 5 lb. irons.

115V75
No. 302—Fits all element for 6 lb. irons.

115V60
No. 363—Copper clad element for 6 lb. irons.

115V55
10 to carton

N.B. Broken ctn, ctn & over.

IRON TERMINALS—INSULATORS

Flat terminal for Hotpoint irons.

No. 329
Per C10.50

No. 324—For American Beauty.

Per C15.00

Westinghouse iron terminal.

No. 323
Per C11.25

Common iron terminal.

No. 330
Per C7.50

Standard terminal insulator.

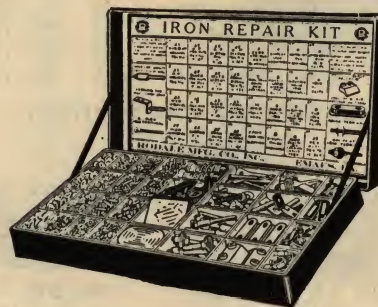

No. 352
Per C10.50

American Beauty Iron Insulator.

No. 358
Per C15.00

IRON REPAIR KIT

No. 100

Thirty-two different parts for iron repairs. Packed in black counter display box.

Price, per Box.....3.00

SOCKET ACCESSORIES

No. 8010—6' black cord with pendant and connector

No. 9820
Ball chain connector

No. 9839
chain insulator

THE KWIKCHANGE LINE is a devel-
opment of a series of devices, wall plates,
and outlet box covers, readily inter-
changeable among themselves, designed
to permit the assembly of any desired
combination, quickly and easily. Of
sturdy construction, Kwikchange devices
will carry actual loads far in excess of
rated capacities, assuring satisfactory
operation and long life. Beautifully
moulded plates, when combined with the
neat and compact devices, form a most
attractive combination.

TO ASSEMBLE—place dividers in units,
then slip combination into mounting
strap.

Deduct for less inner reflector 3.00 list.

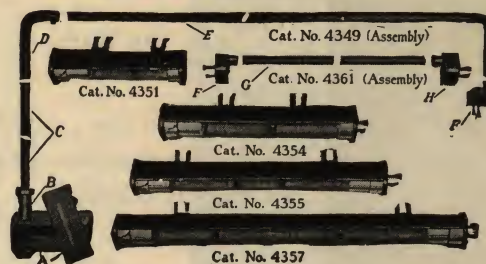

YARDLIGHT

No. 1582—Yardlight

Extends 16¼". Dia. Backplate 5½". Dia. Reflector 10". Finished Dead Black. Each 4.20

SHOWCASE LIGHTING

Sectional construction makes installation easy in any type of show case. Lamp sections come in a variety of lengths, so a combination is obtainable to fit any length of show case. A link section which can be cut and bent to fit permits extension around curved portions of the case. Straight sections are joined electrically and mechanically by simply tightening two machine screws.

LAMP SECTIONS

Description	No. of Lights	For T10 Lamps Cat. No.	For T6½ Lamps Cat. No.	Price Each

"TURNLOX" TWO-PIECE LIGHTING EQUIPMENT

N. E. C. Standard—reflector and lamp removable as unit by simple quarter turn of reflector. Pendant and angle hoods tapped $\frac{1}{2}$ ", standard ceiling hoods fit 4" standard boxes.

RLM Dome showing "Turnlox" feature

All of the Benjamin socket reflectors listed to the left can be equipped with the "Turnlox" feature at an increase of 30 cents each list.

GLASSTEEL DIFFUSERS

"Turnlox" type for very best general lighting. Provide a soft and evenly diffused illumination by means of the opal glass diffusing globe and the white porcelain enameled steel reflector. The "Turnlox" feature makes reflector, lamp and glass globe removable as a complete unit for easy cleaning. Reflectors are interchangeable among any of three styles of hoods. Safety globe holding ring controlled by outside reflector.

Deep Windows Shallow Windows Very Shallow Windows

Planning Show Window Lighting

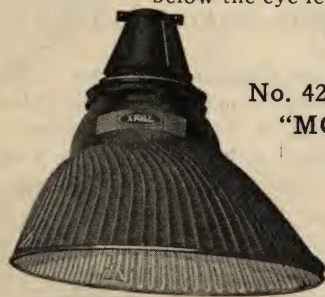

Show windows are divided according to size as indicated in the above diagrams. Deep windows require distributing reflectors; shallow windows, semi-concentrating types; very shallow windows, concentrating types. The number of reflectors to use in lighting a window is influenced by a number of variable factors, but in general the following spacing is suggested:

Large cities, business district.....12"
Large cities, suburban district.....12" to 18"
Small cities.....12" to 18"
Towns.....15" to 24"

Recessing reflectors and wiring them above the ceiling gives the window a neat appearance. Finishing flanges are used to finish off the opening and support the reflector in the correct position. Where ceilings are of plaster, plaster rings are used as a "ground" to plaster to and also as a base for mounting finishing flanges.

"Attraction Zone" Lighting

For show windows of average size. This lighting produces excellent show window lighting with the added feature of highlighting the "Attraction Zone," that part of the window below the eye level.

ATTRACTION ZONE
REFLECTORS

No. 420 "MASTER" and No. 530 "MONARCH".

No. 420—For 150-watt lamp. Diameter 8 $\frac{3}{8}$ ". Overall height 7 $\frac{1}{8}$ ".

No. 530—For 200-watt lamp. Diameter 9 $\frac{3}{4}$ ". Overall height 9 $\frac{1}{8}$ ".

FOR WINDOWS OF AVERAGE SMALL STORE

No. 310 "FAVORITE".

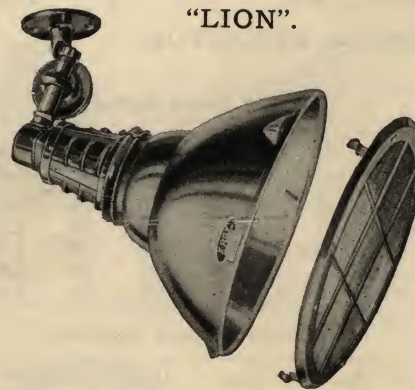

For 100-watt lamp. Diameter 7". Height of reflector 5 $\frac{3}{8}$ ".

Cat. No.	Code Name	Std. Pkg.	Shpg. Wt. Std. Pkg.	Price, each
310	FAVORITE	20	26 lbs.	\$3.15

Interior Floodlights

X-Ray Interior Floodlights can be advantageously used to highlight merchandise displays and counters. This adds emphasis to the display and adds "selling punch" to certain items which are featured. White or colored effects are possible, and the floodlights can be mounted permanently or used as portable units. In addition to No. 33-A illustrated, other X-Ray Interior Floodlights are available in 100- to 500-watt sizes.

No. 33-A "FLOOD-RAY" and No. 33-B "LION".

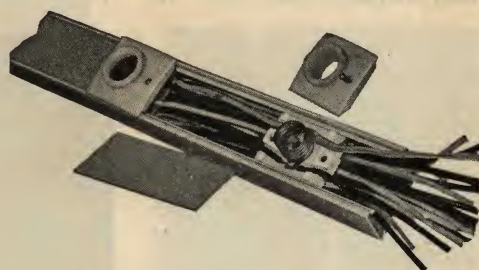

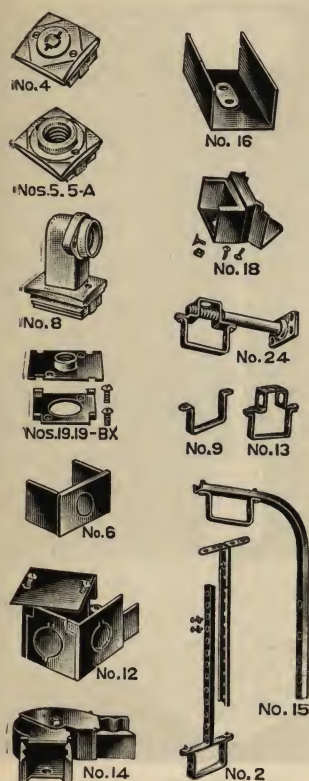

Concentrating type for White or Colored lighting.

For 200-watt lamp. Diameter of reflector 10 $\frac{1}{2}$ ". Depth, back of socket to front of reflector, 10 $\frac{3}{4}$ ". Base has Universal Adjustment. 33-A with color equipment consisting of color frame and red, blue, green, and amber gelatins. 33-B without color equipment.

Cat. No.	Description	Std. Pkg.	Shpg. Wt. Std. Pkg.	Price, each
33-A	With Color Equip.	1	7 lbs.	\$9.25
33-B	No Color Equip.	1	6 lbs.	7.50

CURTISTRIP - LIGHT STRIP MISC. REFLECTORS

Curti Strip

Listed as Standard by Underwriters Laboratories!
Standard Finish: Cadmium Plate

CurtiStrip is a standardized wiring channel and raceway that permits almost any assembly. The patented "snap-in" flat cover permits outlets to be placed on any spacing. Its special sturdy construction, small number of parts and extra large wireway are other features which make it possible to wire and assemble CurtiStrip on the bench and to install it like a fixture.

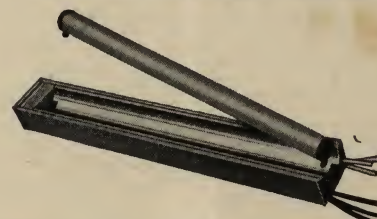

Cat. No.	Description	Std. Pkg.	Price, each
1	CurtiStrip and cover, 10' lgths.....	100'	\$.45
1A	Channel less cover, 10' lgths.....	100'	.36
1B	Cover only, 10' lgths.....	100'	.10

Lumiline Light Strip

LightStrip is made of a bright aluminum reflector mounted in CurtiStrip. It is the only standardized lighting channel available from local stocks which may be made to any length, on the job, with outlets as required.

In addition to the Lumiline type, illustrated, LightStrip units are made for the 25-watt T-6 1/2 tubular lamp, the 25-watt T-10 tubular lamp, and the 40-watt T-8 or the 75 or 150-watt T-10 tubular lamps.

Cat. No.	Lamp Size	Std. Pkg.	Price, each

Pryne-Edwards DOOR CHIMES Mello-Chimes

No. 305

with Peacock Guard

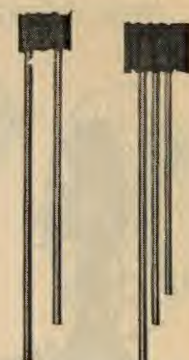

TRANSFORMERS — Transformers are NOT included with chimes. No. 299 requires 16 volt transformer (List 1.75 each)—all others 24 volt transformer (List 2.75 each).

"PRYANCO" DOOR CHIMES

A thrill for the visitor, and a source of never-ending pride and satisfaction to the owner. Rich, melodious tones sound a gentle and harmonious alarm to announce the arrival of the guest. Callers do not soon forget so distinctive and pleasant a greeting.

Two Tube Magnetic Sets (299, 301 and 302) have no motor. They play only 2 notes from the front door and (except 299) 1 note from the rear door. Wrought guard, antique ivory. No. 302T has a dummy center tube for appearance only.

Nos. 303 and 305 all have extra terminals for remote button control, dinner calls, servants, etc. Each of these also has a tone control feature for soft or loud signals. On these numbers guards are optional—Specify streamlined, peacock, or formal guard when ordering.

305	Motor	4	8	8 front, 1 rear, 1 side	9 x60"	40.00

Note: Motor types are now available for surface mounting.

EDWARDS BAR TYPE AND TUBULAR CHIMES

To meet the demand for a quality chime signal of the tone bar type, Edwards has developed the Duochime—entirely different from others on the market. It has two different tone bars which are struck alternately in a succession of harmony notes, more pleasing to the ear and more audible. No special transformers, push buttons, or wiring circuits are required. It operates on any good doorbell transformer, 8 to 10 volts, or on battery.

Attractively designed, it is beautifully finished in ivory enamel with French gold tone bars and is an artistic addition to any interior.

No. 578

Why Genuine SILEX is Best

Silex, with 30 years experience behind them, are the pioneers in the glass coffee maker field. They use only genuine Pyrex glass. All electric models have patented "quick cooling" stoves. Chrome plated metal parts will not rust. Filter is held firmly in position by tension of chrome plated small spring. All lower bowls have "non drip" pouring lips. All electric models can easily and quickly be converted into automatic units by means of Silex automatic cover control. Lower bowls can be used as tea makers by use of "Strainex" patented tea strainer.

There is no substitute for "GENUINE SILEX"

For those who prefer a round Kitchen Clock. An unusual value—good looking, too. 4¾" Dial. Chrome plated bezel. Case colors—Ivory, Green or Red. 6⅝" diameter.

List3.00

The "HAMPTON"

All metal case, chromium plated. Large dial, 6½" in diameter has a fourth hand which makes one revolution each three minutes. Suitable for office or modern kitchen. Size 7⅝", diameter 2⅝" deep.

List4.50

The "STEWARDESS"

An attractive Kitchen Clock—smart, stylish. Cast case finished in Ivory, Green, Red or Black. Chrome plated bezel and fluted side bands. Legible white dial 5⅝" x 4⅝". Case size 5½" x 6¾".

List4.50

The "TRIPOLI"

Calendar Clock. Case—selected striped mahogany faced with fine burl. Light strip inlays. Dial 3½" metal. Silver plated satin finish 2 tone effect. Size 5¼" high, 6½" wide, 3" deep.

List7.95

The "EDGEMONT"

Easel type metal. Bright chrome finish. Dial 4x4½" metal satin finish silver plated. Size 4⅝" high, 5¼" wide.

List4.95

The "ASBURY"

Easel type. Moulded plastic. Colors—Ivory and Gold or Black and Chrome. Dial 3½" satin finish. Size 5⅝" high, 5" wide.

List3.95

Mantel Clocks

HAMMOND

Wall Clocks

The "EMPRESS"

Narrow chrome case mounted on black Bakelite base, silver plated hand-spun dial on a blue mirror field. Beveled edge crystal. Electric alarm. Size: Height 4 $\frac{7}{8}$ ", width 5 $\frac{1}{4}$ ".

List7.50

The "COURTIER"

Easel type alarm, faced with carefully selected small figured Butt Walnut and inlays of light wood. Brushed silver plated ring on etched white silver plated field carries black numerals—3 $\frac{1}{2}$ " dial. Size: Height 5 $\frac{3}{8}$ ", width 4 $\frac{1}{8}$ ".

List4.95

The "DIPLOMAT"

Case—Highly figured Maple Burl face, Mahogany top and sides. Fine marquetry inlays of Walnut, Maple and Ebony. Dial 3 $\frac{1}{2}$ " brushed silver plated. Size: 5 $\frac{3}{4}$ " high, 5" wide, 2 $\frac{1}{8}$ " deep.

List7.50

SYNCHRONOUS—A Hammond Synchronous Clock always registers the correct time if the second hand is in motion. There is no possibility of the clock being slow due to current interruptions. You can have confidence in a Hammond Clock.

The "SOVEREIGN"

Rich walnut case with a special facing of small figured Claro Butt Walnut. Antique brass finished top ornament and feet. Dial—5" metal satin finish silver plated. Size: Height 9 $\frac{1}{2}$ ", width 7 $\frac{3}{4}$ ", depth 3 $\frac{1}{4}$ ".

List9.95

The "SENTINEL"

Bichronous (Non-Stop) Wall or Commercial Model

Plug it into a convenient outlet and you will always have correct time by Hammond. Current interruptions won't faze it. Does not need a step-ladder as an accessory. Case size 18" square. 14" dial, visibility 150 feet. Furnished in Walnut. A beautiful and efficient clock.

List30.00

The "REGENT"

Easel type of lustrous genuine White Onyx. Hand-spun gold plated 4 $\frac{3}{8}$ " track dial. Hour markings in white. Revolving second disk to match. Size: 5 $\frac{1}{8}$ " square.

List9.75

The "AURORA"

With illuminated dial case—fine Burl Maple face with Mahogany top and sides or Oriental wood faced with Walnut top and sides. Light strip inlays on face and top. Dial 3 $\frac{1}{8}$ ". Size: Height 5 $\frac{1}{8}$ ", width 4 $\frac{1}{8}$ ", depth 2 $\frac{1}{2}$ ".

List7.50

The "CHANCELLOR"

For Mantel, Bookcase or Radio

Case faced with center-matched Stump Walnut. Light strip inlays on front and sides. Dial 5" metal silver plated, 2 tone satin finish. Size: Height 8 $\frac{5}{8}$ ", width 7 $\frac{5}{8}$ ", depth 3 $\frac{1}{4}$ ".

The PROGRESS Vacuum Cleaner

THE "PROGRESS"—MODEL 9
Illustrating use in cleaning upholstery

THE MACHINE OF 101 USES

Here are some of the many tasks which can be performed **SAFER, EASIER** and **BETTER** with the Progress. (An illustrated instruction booklet is included with each cleaner.)

1. **Cleaning Rugs and Carpets.** The patented Progress Nozzle, combined with "Cyclone Suction," gets the dirt and lint in a manner that will astonish you.
2. **Cleans Bare Floors** and does it thoroughly—with ease.
3. **Cleans Upholstery.** See illustration at left.
4. **Cleans under Low Furniture.**
5. **Cleans Kitchen Floors, Linoleums.**
6. **Shampooing Rugs and Carpets.**
7. **Waxing and Polishing Floors.**
8. **Cleans high and low Mouldings.**
9. **Dusting Book Shelves, Radio, etc.**
10. **Cleans Drapes and Curtains.**
11. **Cleaning Screens, Mattresses, Baby Cribs, Picture Frames, Window Sills, Automobile Interiors, Spraying Paint, Demolishing**—these are just a few of the tasks made easy with the Progress.

Description: Cylinder of non-metallic composition with walnut finish, mounted on 3 soft rubber wheels—(a swivel wheel in front assures easy handling). $\frac{1}{8}$ H. P. Black and Decker rubber mounted motor, 480 watts, drives 3 fan suction unit; 110 volt AC or DC; machine equipped with convenient toggle switch; chrome plated front cover and trimmings; positive "germ trap" between dust bag and motor prevents redistribution of germs and dust; water lift, 42-44 inches.

The Progress is **MORE** than just a vacuum cleaner—it traps the dust—it traps the germs. If the dust and germs that emerge through the bag of the ordinary vacuum cleaner were visible to the eye, you would lose no time in changing to a Progress—the Modern Vacuum Cleaner. The Progress is **SAFE**—it is really a home purification unit. An amazing sanitary filter pad not only prevents even the tiniest particles of dust from passing out of the cleaner, but it also removes germs—germs that cause colds, sore throats, tuberculosis, and many other ills.

Attachments included with the cleaner include: 1—Carpet Nozzle; 2—Felt polishing pad; 3—Upholstery nozzle; 4—Radiator tool; 5—Wonder brush; 6—Floor brush; 7—Sprayer; 8—Moth-proofing unit; 9—Curved half of wand; 10—Straight half of wand; 11—Patented germ trap; 12—Hose.

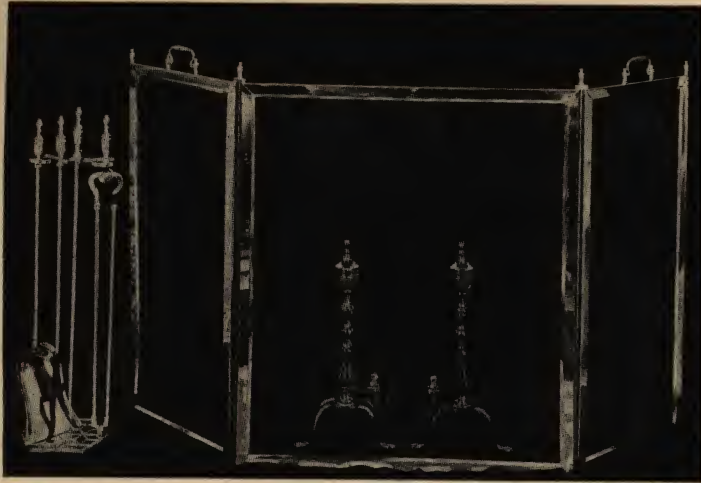

Garment Bag

Made of heavy DuPont material 60 inches long, with 42 inch zipper, transparent windows and pen flashlight.

CONTRACTS

Non Mazda (Jewell) lamps are sold outright—no contract is necessary.

G. E. Mazda lamps earn discounts when purchased in lots of 5.00 list or standard packages.

Companies purchasing large quantities based on yearly requirements for their own use should buy under contract at new liberalized discounts.

Dealers purchasing Mazda lamps for resale must obtain them under contract, discount based on estimated yearly sales.

Write for complete information.
